## REGRETS CHURCH DIVISION.

Bishop Cranston Says It Is Disgrace That Methodism Is Disrupted.

NEW YORK, March 24.—Bishop Earl Cranston at the annual camp-fire meeting of the conference war veterans, the chief feature of the opening day's session here of the New York conference of the Methodist Episcopal Church, expressed his regret that the Methodism of the nation was still divided.

"An everlasting disgrace to Methodism that we are disrupted," he said. "My message is a word of grief, and I can best express it by the old adage, 'One God, one country, one flag and one Methodism.'"

## WOULD INSURE HEALTH BY CARE OF THE MOUTH

Dr. Charles W. Cuthbertson Advocates Free Dental Clinics in Public Schools.

Theme of Address at Citizens' Meeting—Association Discusses Gas Burners and Rates.

Children's health, to be taken care of through the mouth, is the object work performed by the National Capital Dental Association, explained Dr. Charles W. Cuthbertson, speaking last night at a meeting of the North Capitol and Eckington Citizens' Association, held in the Eckington Presbyterian Church, North Capitol street and Florida avenue.

Dr. Cuthbertson explained at some length the necessity of a free dental clinic in the public schools of the District and traced the history of the growth of such work in the United States. He told of the work that has been done in this regard in the local schools, and declared that since November 200 children had been treated by practitioners who gave their services freely, and that more than 2,000 operations had been performed.

## Condemns Cheap Candies.

"All-day suckers" and other forms of cheap candy commonly sold to and bought by school children were condemned by Dr. Cuthbertson, who declared that if saloons should be required by law to be 400 feet from residences, stores which sell cheap candies to children should be compelled to be at least 400 miles from schoolhouses. On motion of Dr. Stuart M. Angelo, the association went on record unanimously as favoring the establishment of a free dental clinic in the District public schools. A. Coulter Wells, secretary of the association, was instructed to send a letter through the board of education petitioning Congress for the establishment of such a free dental clinic in the public schools. Three dentists, to devote their entire time to such work, will be asked for—two for white children and one for colored children. These dentists will devote their skill to treating the mouths of children whose parents are unable to pay for the services of a dentist. Dr. Cuthbertson stated.

The board of education is to be asked for the use of a room in the Emory School for the use of the citizens' association, on a motion made by President Edgar D. Thompson, and unanimously passed by the association.

## Star Editorial Is Text.

Reading an editorial from The Star of March 20, on gas burners and rates, W. J. Frizzell spoke at length on the question. Mr. Frizzell declared that it is a question that affects every person in the District who uses gas, especially children who study their lessons at night. The question was referred to the executive committee of the association for further consideration.

A motion concerning the needs of local firemen, as seen by the Firemen's Association, was referred to the fire and police committee, and the Firemen's Association is to be asked by the association to furnish it data showing the relative standing of the local fire department and its men, compared with the fire departments of other cities of the country.

On motion of S. M. Ely the association is to consider the question of affiliation with the Federation of Citizens' Associations.

## Sale of "Dope" Discussed.

"Private opinions publicly expressed," in the words of President Thompson, followed the introduction of a resolution offered by Rev. C. W. Whitmore, condemning the campaign against the indiscriminate selling of "dope." Some of the citizens thought the movement should be commended, while others thought it should not. It finally was commended.

Fire destroyed the canning factory and warehouse of L. L. Gardner & Sons, Jessup, Md., last night, and threatened other buildings. Washington service on the Baltimore and Ohio road was tied up for a time and telegraph wires were put out of commission.
